MAYO CLINIC

Volunteers Sought for Study of Stop Smoking Program

Mayo Clinic is seeking men and women over the age of 18 who smoke cigarettes and would like to quit. The purpose of this research study is to determine the effectiveness and safety of an investigational drug as an aid in maintaining smoking cessation.

Participants will receive one of three study medications. At each of the visits all participants will receive individual counseling sessions, and written handouts.

Those interested in getting more information or to participate in the study may call (800) 848-7853.

Mayo Clinic is an affirmative action and equal opportunity educator and employer.
